

zGlue Open Hardware License

Version 1.0, June 10, 2019

Copyright © 2020 zGlue Inc. <<https://zglue.com>>

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The zGlue Open Hardware (zOH) License is a free, CERN-OHL based license related to selecting, building, and optimizing custom chips using ChipBuilder™ by zGlue Inc. and available at chipbuilder.zglue.com. While the CERN-OHL license is an open source hardware license, the scope of zOHL also covers software (e.g., open source code) needed for the hardware design using ChipBuilder™.

zOH License is adapted from the CERN-OHL license version 2.0. CERN developed a license to promote collaboration among hardware designers and to provide a legal tool which supports the freedom to use, study, modify, share and distribute hardware designs and products based on those designs. Use of the zOH License does not imply any endorsement by CERN of any Licensor or their designs nor does it imply any involvement by CERN in their development.

zOH License allows anyone using ChipBuilder™ to apply specific design information (e.g., netlist, firmware, bill-of-material (BOM), etc.) to design, code, and make custom chip(s), and to maximize their chip features by programming integrated peripherals in Smart Fabric™ by zGlue Inc. Users of the zOH License can select, build, and optimize their custom chips by selecting chiplets from zGlue's ChipletStore, construct schematics and connect to embedded peripherals, and choose from diverse chip package options with support for LGA packages. Users of the zOH License can maximize efficiency with zGlue Smart Fabric™ API (Application Specific Interface) and minimize errors by using control Smart Fabric™ functions through programming, reprogramming their chips on the fly, and download and use zGlue software development kit (SDK) and APIs.

However, the zOH License does not permit anyone without prior authorization from zGlue Inc. and separate available license from zGlue Inc., to build, develop, and/or modify their own Smart Fabric™ substrates. As such, the scope of the zOH License excludes the development and/or modifications to the Smart Fabric™ substrate owned by zGlue Inc.

The precise terms and conditions for copying, distribution, and using of various features of ChipBuilder™ associated with the zOH License follow.

TERMS AND CONDITIONS

1 Definitions

- 1.1. “License” means this zGlue Open Source Hardware (zOH) License.
- 1.2. “Compatible License” means
 - a) any earlier version of the zOH License, or
 - b) any license which permits You to treat the Source to which it applies as licensed under zOH License provided that on Conveyance of any such Source, or any associated Product You treat the Source in question as being licensed under zOH License as appropriate.
- 1.3. “Source” means information such as design materials or digital code which can be applied to Make or test a Product or to prepare a Product for use, Conveyance or sale, regardless of its medium or how it is expressed, using ChipBuilder™ by zGlue Inc.
 - a) Source may include:
 - a. Notices;
 - b. design materials related to ChipBuilder™ by zGlue Inc., such as specific design information (e.g., netlist, firmware, bill-of-material (BOM), etc.) to design, to code, and to make custom chip(s), and to maximize chip features by programming integrated peripherals in Smart Fabric™ by zGlue;
 - c. libraries of chiplets and chip package options available for selection, building, and optimization of custom chips via zGlue’s ChipletStore;
 - d. design materials to maximize design efficiency with zGlue Smart Fabric™ API and to minimize design errors by using control Smart Fabric™ functions through programming and reprogramming chips on the fly; and/or
 - e. downloadable zGlue software development kit (SDK) and APIs associated with Chipbuilder™; and

- b) Source excludes information (e.g., design specifications, hardware and/or software) for building Smart Fabric™ substrates.
- 1.4. “Covered Source” means Source that is explicitly made available under this License.
- 1.5. “Product” means any device, chiplet, chip, processor, system-on-chip (SoC), component, package, work or physical object, whether in finished or intermediate form, arising from the use, application or processing of Covered Source.
- 1.6. “Make” means to create or configure something, whether by manufacture, assembly, compiling, loading or applying Covered Source or another Product or otherwise.
- 1.7. “Available Component” means any part, sub-assembly, library or code which:
 - a) is licensed to You as Complete Source under a Compatible License; or
 - b) is available, at the time a Product or the Source containing it is first Conveyed, to You and any other prospective licensees
 - a. with sufficient rights and information (including any configuration and programming files and information about its characteristics and interfaces) to enable it either to be Made itself, or to be sourced and used to Make the Product; or
 - b. as part of the normal distribution of a tool used to design or Make the Product.
- 1.8. “External Material” means anything (including Source) which:
 - a) is only combined with Covered Source in such a way that it interfaces with the Covered Source using a documented interface which is described in the Covered Source; and
 - b) is not a derivative of or contains Covered Source, or, if it is, it is solely to the extent necessary to facilitate such interfacing.
- 1.9. “Complete Source” means the set of all Source necessary to Make a Product, in the preferred form for making modifications, including necessary installation and interfacing information both for the Product, and for any included Available Components. If the format is proprietary, it must also be made available in a format (if the proprietary tool can create it) which is viewable

- with a tool available to potential licensees and licensed under a license approved by the Free Software Foundation or the Open Source Initiative. Complete Source need not include the Source of any Available Component, provided that You include in the Complete Source sufficient information to enable a recipient to Make or source and use the Available Component to Make the Product.
- 1.10. “Source Location” means a location where a Licensor has placed Covered Source, and which that Licensor reasonably believes will remain easily accessible for at least three years for anyone to obtain a digital copy.
 - 1.11. “Notice” means copyright, acknowledgement and trademark notices, references to the location of any Notices, modification notices (subsection 3.3(b)) and all notices that refer to this License and to the disclaimer of warranties that are included in the Covered Source. All Notices must attribute zGlue Inc as the originator of the work.
 - 1.12. “Licensee’ or ‘You” means any person exercising rights under this License.
 - 1.13. “Licensor” means a person who creates Source or modifies Covered Source and subsequently conveys the resulting Covered Source under the terms and conditions of this License. A person may be a Licensee and a Licensor at the same time.
 - 1.14. “Convey” means to communicate to the public or distribute.

2 Applicability

- 2.1. This License governs the use, copying, modification, Conveying of Covered Source and Products, and the Making of Products. By exercising any right granted under this License, You irrevocably accept these terms and conditions.
- 2.2. This License is granted by the Licensor directly to You, and shall apply worldwide and without limitation in time.
- 2.3. You shall not attempt to restrict by contract or otherwise the rights granted under this License to other Licensees.
- 2.4. This License is not intended to restrict fair use, fair dealing, or any other similar right(s).
- 2.5. This License does not permit anyone without prior express written authorization from zGlue Inc. and separate available express license from

zGlue Inc., to build their own Smart Fabric™ substrates. Smart Fabric™ substrate is an available component for modification and development in accordance with a spate license. As such, the scope of the zOH License excludes development and/or modifications to the Smart Fabric™ technology of zGlue Inc.

3 Copying, modifying and Conveying Covered Source

- 3.1. You may copy and Convey verbatim copies of Covered Source, in any medium, provided You retain all Notices.
- 3.2. You may modify Covered Source, other than Notices, and other than Smart Fabric™ substrate by zGlue, provided that You irrevocably undertake to make that modified Covered Source available from a Source Location should You Convey a Product in circumstances where the recipient does not otherwise receive a copy of the modified Covered Source. In each case subsection 3.4 shall apply. A separate license for modifying the Smart Fabric™ substrate is available from zGlue Inc.
- 3.3. You may only delete Notices if they are no longer applicable to the Covered Source as modified by You and You may add additional Notices applicable to Your modifications.
- 3.4. You may Convey modified Covered Source (with the effect that You shall also become a Licensor) provided that You:
 - a) retain Notices as required in subsection 3.2;
 - b) add a Notice to the modified Covered Source stating that You have modified it, with the date and brief description of how You have modified it;
 - c) add a Source Location Notice for the modified Covered Source if You Convey in circumstances where the recipient does not otherwise receive a copy of the modified Covered Source; and
 - d) License the modified Covered Source under the terms and conditions of this License (or, as set out in subsection 8.3, a later version, if permitted by the license of the original Covered Source). Such modified Covered Source must be licensed as a whole, but excluding Available Components contained in it or External Material to which it is interfaced, which remain licensed under their own applicable licenses.

- 3.5. You may Convey Covered Source or modified Covered Source under license terms which differ from the terms of this License provided that:
- a) You comply at all times with subsection 3.4; and
 - b) You provide a copy of this License to anyone to whom You Convey Covered Source or modified Covered Source.

4 Making and Conveying Products

- 4.1. You may Make Products, and/or Convey them, provided that You either provide each recipient with a copy of the Complete Source or ensure that each recipient is notified of the Source Location of the Complete Source. That Complete Source includes Covered Source and You must accordingly satisfy Your obligations set out in subsection 3.4. If specified in a Notice, the Product must visibly and securely display the Source Location on it or its packaging or documentation in the manner specified in that Notice.
- 4.2. Where You Convey a Product which incorporates External Material, the Complete Source for that Product which You are required to provide under subsection 4.1 need not include any Source for the External Material.
- 4.3. You may license Products under terms of Your choice, provided that such terms do not restrict or attempt to restrict any recipients' rights under this License to the Covered Source.

5 Research and Development

- 5.1. You may Convey Covered Source, modified Covered Source or Products to a legal entity carrying out development, testing or quality assurance work on Your behalf provided that the work is performed on terms which prevent the entity from both using the Source or Products for its own internal purposes and Conveying the Source or Products or any modifications to them to any person other than You. Any modifications made by the entity shall be deemed to be made by You pursuant to subsections 3.2 and 3.3.

6 DISCLAIMER AND LIABILITY

- 6.1. **DISCLAIMER OF WARRANTY** -- The Covered Source and any Products are provided “as is” and any express or implied warranties, including, but not limited to, implied warranties of merchantability, of satisfactory quality, non-infringement of third party rights, and fitness for a particular purpose or use

are disclaimed in respect of any Source or Product to the maximum extent permitted by law. The Licensor makes no representation that any Source or Product does not or will not infringe any patent, copyright, trade secret or other proprietary right. The entire risk as to the use, quality, and performance of any Source or Product shall be with You and not the Licensor. This disclaimer of warranty is an essential part of this License and a condition for the grant of any rights granted under this License.

- 6.2. **EXCLUSION AND LIMITATION OF LIABILITY** -- The Licensor shall, to the maximum extent permitted by law, have no liability for direct, indirect, special, incidental, consequential, exemplary, punitive or other damages of any character including, without limitation, procurement of substitute goods or services, loss of use, data or profits, or business interruption, however caused and on any theory of contract, warranty, tort (including negligence), product liability or otherwise, arising in any way in relation to the Covered Source, modified Covered Source and/or the Making or Conveyance of a Product, even if advised of the possibility of such damages, and You shall hold the Licensor(s) free and harmless from any liability, costs, damages, fees and expenses, including claims by third parties, in relation to such use.

7 Patents

- 7.1. Subject to the terms and conditions of this License, each Licensor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section 6, or where terminated by the Licensor for cause) patent license to Make, have Made, use, offer to sell, sell, import, and otherwise transfer the Covered Source and Products, where such license applies only to those patent claims licensable by such Licensor that are necessarily infringed by exercising rights under the Covered Source as Conveyed by that Licensor.
- 7.2. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Covered Source or a Product constitutes direct or contributory patent infringement, or You seek any declaration that a patent licensed to You under this License is invalid or unenforceable then any rights granted to You under this License shall terminate as of the date such process is initiated.

8 General

- 8.1. If any provisions of this License are or subsequently become invalid or unenforceable for any reason, the remaining provisions shall remain effective.

- 8.2. You shall not use any of the name (including acronyms and abbreviations), image, or logo by which the Licensor is known, except where needed to comply with section 3, or where the use is otherwise allowed by law. Any such permitted use shall be factual and shall not be made so as to suggest any kind of endorsement or implication of involvement by the Licensor or its personnel.
- 8.3. zGlue Inc. may publish updated versions and variants of this License which it considers to be in the spirit of this version, but may differ in detail to address new problems or concerns. New versions will be published with a unique version number and a variant identifier specifying the variant. If the Licensor has specified that a given variant applies to the Covered Source without specifying a version, You may treat that Covered Source as being released under any version of the zOH License with that variant. If no variant is specified, the Covered Source shall be treated as being released under zOH License V. 1.0. The Licensor may also specify that the Covered Source is subject to a specific version of the zOH License or any later version in which case You may apply this or any later version of zOH License with the same variant identifier published by zGlue Inc.
- 8.4. This License shall terminate with immediate effect if You fail to comply with any of its terms and conditions.
- 8.5. However, if You cease all breaches of this License, then Your License from any Licensor is reinstated unless such Licensor has terminated this License by giving You, while You remain in breach, a notice specifying the breach and requiring You to cure it within 30 days, and You have failed to come into compliance in all material respects by the end of the 30 day period. Should You repeat the breach after receipt of a cure notice and subsequent reinstatement, this License will terminate immediately and permanently. Section 6 shall continue to apply after any termination.
- 8.6. This License shall not be enforceable except by a Licensor acting as such, and third party beneficiary rights are specifically excluded.

9 No Surrender of Others' Freedom.

- 9.1. If conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot convey a covered work so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not convey it at all.

END OF TERMS AND CONDITIONS
